AUGUST

2019

FROM THE DESK OF MARCHELLE KNAPP

Well here we are in the heat of the summer. Hopefully you have been able to keep cool. The garden is starting to deliver a small bounty of vegetables. The grounds have been full of blooms. A big thank you to the garden club for the hard work they have put in to making our beds look so beautiful. Make sure to take a tour of the grounds they are on full display.

This month we will start the water pipe replacement project. Please plan to attend the resident meeting on August 12th to get the most updated information about what to expect during the construction. I am especially grateful for the Lords blessings. I am thankful to state representative Jim Walsh and Longview city councilman Scott Vydra for their efforts to help us secure the grant money to pay for the project.

Important summer reminders

Drink plenty of water!

If you don't have air conditioning, spend the day downstairs where it is cool.

If you open your window, make sure your heat is turned down or off so the heater doesn't come on.

PARKING LOT REMINDERS

As you know, our parking lot is full almost all the time these days. I know this can be challenging. If you come home and the lot is full, it is ok to park in the 15 minute and handicap parking. Please only park in the loading zone at the back of the building if there is no other option. The loading zone is needed for the food service trucks and for new tenants when they move in. We do lease spots 1-5 at the college. This is also an option for tenants. However, please don't park in any other spots at the college, especially during weekdays. The college has started to issue tickets in that lot.

If you have a car in the lot that you are no longer using, we would very much appreciate if you could move it off the lot. Please contact the office if you need help doing this.

Campus Towers had the annual safety inspection from our Insurance company and the good news is we passed with flying colors. A couple of reminders to residents that came from the inspection:

Hallways must be kept clear no door mats & nothing sitting outside doorways.

Residents should not be using the coffee maker in the dining room. Only employees should be "making coffee".
